

February 2007

Newsletter

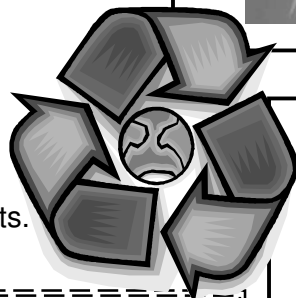

Here at Display Tactix we are very proud to say we are current members of the "Keep New Zealand Beautiful Inc" and actively contribute to the organisation's continuing campaign to keep our country clean and beautiful.

All companies create a certain amount of waste and while not necessarily carcinogenic, careful thought needs to be made to waste disposal. Everyone has a responsibility to reduce waste and recycle wherever possible.

For our part Display Tactix has been recycling for many years. A lot of plastic off-cuts are passed on to students; we also send off around half a tonne of scrap plastic for recycling each month.

While recycling in New Zealand is in its infancy, there is a good infrastructure in place. Recycling costs are minimal; it just takes a little planning and often lateral thinking to set up.

For more information on "Keep New Zealand Beautiful" go to www.knzb.org.nz and see how to join or become a sponsor or check out their range of merchandising products.

Display Tactix would like to wish everyone a belated "Happy New Year" - we hope you all had a good break over the Christmas period!

It's hard to believe that February is done already!

It's end-of-Season Sports Awards time!

Are you looking for something that looks like a million dollars but doesn't cost that much?

The awards and trophies we make can be as simple or as elaborate as your budget allows. With designs to fit any pocket and 10 years of experience we've found ways to do just about anything!

With modern laser engraving, every award can be individually etched with the winner's name and sponsors logo - even pictures can be engraved!

Check out our revamped web page for a huge range of exciting awards to choose from.
